IMPORTANT NOTICE: The state has opted to issue a complete new document. This approach has been selected in an effort to ensure the clarity of the contract documents during both the “Pre-Award” and “Post Award” phases of this procurement. Prospective bidders should discard the original solicitation document and use this document when preparing their offer.

In an effort to assist your review of the amendment, we have endeavored to highlight changes in yellow. To use this feature, Offerors will need to view the electronic version of this document.

Despite our best efforts, there is a chance that a change was inadvertently left unhighlighted. Therefore, Offerors are cautioned that they are responsible to review the content of the entire document and cannot rely detrimentally on highlights identifying all changes.

RESPONSIVENESS/IMPROPER OFFERS (JAN 2004)

(a) Bid as Specified. Offers for supplies or services other than those specified will not be considered unless authorized by the Solicitation.

(b) Multiple Offers. Offerors may submit more than one Offer, provided that each Offer has significant differences other than price. Each separate Offer must satisfy all Solicitation requirements. If this solicitation is an Invitation for Bids, each separate offer must be submitted as a separate document. If this solicitation is a Request for Proposals, multiple offers may be submitted as one document, provided that you clearly differentiate between each offer and you submit a separate cost proposal for each offer, if applicable.

(c) Responsiveness. Any Offer which fails to conform to the material requirements of the Solicitation may be rejected as nonresponsive. Offers which impose conditions that modify material requirements of the Solicitation may be rejected. If a fixed price is required, an Offer will be rejected if the total possible cost to the State cannot be determined. Offerors will not be given an opportunity to correct any material nonconformity. Any deficiency resulting from a minor informality may be cured or waived at the sole discretion of the Procurement Officer. [R.19-445.2070 and Section 11-35-1520(13)]

(d) Price Reasonableness: Any offer may be rejected if the Procurement Officer determines in writing that it is unreasonable as to price. [R. 19-445.2070].

(e) Unbalanced Bidding. The State may reject an Offer as nonresponsive if the prices bid are materially unbalanced between line items or subline items. A bid is materially unbalanced when it is based on prices significantly less than cost for some work and prices which are significantly overstated in relation to cost for other work, and if there is a reasonable doubt that the bid will result in the lowest overall cost to the State even though it may be the low evaluated bid, or if it is so unbalanced as to be tantamount to allowing an advance payment. SUBMITTING CONFIDENTIAL INFORMATION (AUG 2002)

(An overview is available at www.procurement.sc.gov) For every document Offeror submits in response to or with regard to this solicitation or request, Offeror must separately mark with the word "CONFIDENTIAL" every page, or portion thereof, that Offeror contends contains information that is exempt from public disclosure because it is either (a) a trade secret as defined in Section 30-4-40(a)(1), or (b) privileged and confidential, as that phrase is used in Section 11-35-410. For every document Offeror submits in response to or with regard to this solicitation or request, Offeror must separately mark with the words "TRADE SECRET" every page, or portion thereof, that Offeror contends contains a trade secret as that term is defined by Section 39-8-20 of the Trade Secrets Act. All markings must be conspicuous; use color, bold, underlining, or some other method in order to conspicuously distinguish the mark from the other text. Do not mark your entire response (bid, proposal, quote, etc.) as confidential, trade secret, or protected. If your response, or any part thereof, is improperly marked as confidential or trade secret or protected, the State may, in its sole discretion, determine it nonresponsive. If only portions of a page are subject to some protection, do not mark the entire page. By submitting a response to this solicitation or request, Offeror (1) agrees to the public disclosure of every page of every document regarding this solicitation or request that was submitted at any time prior to entering into a contract (including, but not limited to, documents contained in a response, documents submitted to clarify a response, and documents submitted during negotiations), unless the page is conspicuously marked "TRADE SECRET" or "CONFIDENTIAL" or "PROTECTED", (2) agrees that any information not marked, as required by these bidding instructions, as a "Trade Secret" is not a trade secret as defined by the Trade Secrets Act, and (3) agrees that, notwithstanding any claims or markings otherwise, any prices, commissions, discounts, or other financial figures used to determine the award, as well as the final contract amount, are subject to public disclosure. In determining whether to release documents, the State will detrimentally rely on Offeror's marking of documents, as required by these bidding

instructions, as being either "Confidential" or "Trade Secret" or "PROTECTED". By submitting a response, Offeror agrees to defend, indemnify and hold harmless the State of South Carolina, its officers and employees, from every claim, demand, loss, expense, cost, damage or injury, including attorney's fees, arising out of or resulting from the State withholding information that Offeror marked as "confidential" or "trade secret" or "PROTECTED". **SCDOA-604
CRACK SEALING**

604.1.1. DESCRIPTION

This item shall consist of providing and installing a resilient and adhesive hot-applied rubberized asphalt crack sealing filler capable of effectively sealing cracks in asphalt pavements.

604-2.0 MATERIAL

604-2.1 CRACK SEALERS

The sealant shall be a high quality hot pour modified asphalt material. The sealant shall meet all requirements of ASTM D 3405, Federal Specification SS-S-1401C, FAA Specifications Item P-605, Hot-Applied Rubberized Asphalt Sealant.

Each lot or batch of sealing compound shall be delivered to the job site in the manufacturer's original sealed container. Each container shall be marked with the manufacturer's name, batch or lot number, and the safe heating temperature and shall be accompanied by the manufacturer's certification stating that the compound meets the requirements of this specification.

604-3.0 CONSTRUCTION METHODS

604-3.1 TIME OF APPLICATION

Cracks shall be sealed as soon after completion of the cleaning as feasible and before the pavement is opened to traffic, including construction equipment. The pavement temperature shall be above 50 degrees F. at the time of installation of the poured crack sealing material.

604-3.2 PREPARATION OF CRACKS

Cracks greater than 2 inches shall be prepared in accordance with specification number P-607. Routing will be necessary where cracks are 1/4 inch to 1/2 inch, or where the edges are loose and raveled. Cracks to be filled shall be cleaned of all loose or foreign material. Cracks less than 1/4 inch shall not be sealed. This will ensure against loss of adhesion to the sides of the cracks. Where vegetation exists in cracks, the vegetation shall be removed, and the cracks cleaned to a depth of two inches where practical. Hot compressed air at 3000°F at 3000 feet per second will be used at all times to blast out any vegetation, dirt, dampness and loose materials from the cracks. Cracks shall be treated after routing and cleaning with a concentrated solution of a soil sterilant as approved.

604-3.3 INSTALLATION OF SEALANTS

Cracks less than 1/4 inch shall not be sealed. Cracks shall be inspected and approved by the Engineer/Owner before sealing is allowed. Sealants shall be installed in accordance with the following requirements:

HOT Poured SEALANTS. The sealant shall be composed of a mixture of materials that will form a resilient and adhesive compound capable of effectively sealing cracks in asphalt pavements against the infiltration of moisture and foreign materials throughout repeated cycles of expansion and contraction with temperature changes, and that will not, at ambient temperature, flow from the crack, or be picked up by vehicle tires. Setting time test performed using ASTM D-711 procedures, will have no pickup in 5 minutes at 77°F under atmosphere temperature.

The crack sealant shall be applied uniformly solid from bottom to 1/8 inch from the top and shall be filled

without formation of entrapped air or voids. Sealants can be either flashed to the surface or over-lapping the surface with a squeegee. The heating kettle shall be an indirect heating type, constructed as a double boiler oil jacketed kettle. A positive temperature control and mechanical agitation shall be provided. The sealant shall not be heated to more than 20 degrees below the safe heating temperature. The safe heating temperature can be obtained from the manufacturer's shipping container. A direct connection pressure type extruding device with nozzles shaped for insertion into the crack shall be provided. Any sealant spilled on the surface of the pavement shall be removed immediately.

Jet fuel resistant sealant shall be placed within areas of fuel farms or fueling areas where concrete aprons exist, or where directed by the Engineer/Owner. Reference ASTM 3581.

604-4.0 METHOD OF MEASUREMENT

604-4.1 MEASUREMENT

Cracks sealed in accordance with these provisions will be measured in linear feet.

604-5.0 BASIS OF PAYMENT

604-5.1 PAYMENT

Payment for crack sealing shall be made at the contract unit price. This price shall be full compensation for furnishing all materials, for all preparation, delivering, and placing of these materials, and for all labor, equipment, tools and incidentals necessary to complete the item.

Payment will be made under

Item P-604 Crack Sealing Lump Sum Payment or linear feet of cracking

ITEM SCDOA-605

JOINT SEALING

605-1.0. DESCRIPTION

This specification covers the resealing of joints and cracks in existing portland cement concrete apron.

The joint or crack shall be prepared by removing the old sealant or joint insert and refacing and cleaning the joint.

Installation of separating or blocking medium and installation of new sealant shall be in accordance with this specification in order to produce the proper shape factor in the joint sealant.

605-2.0 SILICONE SEALANT

605-2.1 MATERIAL

Silicone Joint Sealant Material. Joint sealing shall meet the requirement of ASTM D5893 Type SL (self-leveling). Each lot or batch of sealing compound shall be delivered to the jobsite in the manufacturer's original sealed container. Each container shall be marked with the manufacturer's name, batch or lot number and shall be accompanied by the manufacturer's certification stating that the compound meets the requirement of this specification. All separating and block medium shall be inspected, tested, and approved by the Owner or Engineer before being incorporated into the work. Any work in which untested, or unacceptable materials are being used without approval or written permission by the Owner or Engineer, shall be performed at the contractor's risk.

605-2.2 EQUIPMENT

The sealant material shall be installed by an approved mechanical device suitable for the purpose intended. When the seal is applied mechanically, a nozzle shall be shaped to fit inside the joint to introduce the sealant between the joint faces.

605-2.3 CONSTRUCTION

Removal of existing joint sealant or insert, refacing of joints and cleaning; shape factor, blocking medium and sealant installation shall be in accordance with these specifications.

605-2.3.1 INSERT REMOVAL

Inserts shall be removed from all joints and the joints shall be sawed to provide a clean vertical face. The width and depth of the saw cuts shall be such as to insure removal of all the insert and to provide a finished joint of the dimensions necessary for the sealant material selected for the resealing operation.

605-2.3.2 REMOVAL OF EXISTING SEALANT

Any in-place sealant shall be cut loose from each joint face independently using a vertical cutting edge tool. Alternatively, a power driven concrete saw with diamond or abrasive blades can be utilized. After cutting free the existing sealant from both joint faces, the sealant shall be removed from both joint faces to the depth required to accommodate any separating and/or depth blocking medium used, and to maintain the specified depth for the new sealant material to be installed.

605-2.3.3 REFACING OF JOINTS

Joints shall be refaced using a power driven concrete saw with diamond and/or abrasive blades to remove

all old sealant from the joint faces, to expose new clean concrete and, if required, to widen the joint to the width and depth necessary to provide for an effective shape factor.

605-2.3.4 SHAPE FACTOR

Climatic conditions should be considered when this type of material is to be specified. Actual width and depth of joints will depend on the original construction and existing field conditions. The joint reservoir shape shall be such that the sealant material is a minimum of 1/4 inch thick, but not greater than 1/2 inch thick for joints up to 1 inch wide. Thickness of sealant in joints over 1 inch wide shall be limited to 1/2 inch. A width to depth ratio of 2:1 is ideal and shall be maintained for joints less than 1 inch wide.

605-2.3.5 CLEANING PRIOR TO SEALING

Following the refacing operation, the joint faces and opening shall be thoroughly cleaned using a high-pressure water jet or sand blasting equipment followed by an air jet (oil-free) to remove all cuttings or debris remaining on the faces or in the joint opening. The newly exposed joint faces shall then be cleaned by sandblasting. A multi-pass technique shall be used, until the surfaces are free of any traces of old sealant and saw-cutting fines that might prevent bonding. For final cleaning immediately prior to installation of the blocking medium, the joints shall be blown with oil-free compressed air and left completely free of sand and water. Cleaning of the joint shall follow the recommendations of the manufacturer of the joint seal being used.

605-2.3.6 SEPARATING AND BLOCKING MEDIUM

The lower portion of the joint groove or opening shall be plugged or sealed off at a uniform depth with a backer rod to prevent entrance of the sealant below the depth specified. It shall be compatible with the sealant, clean and free of scale, foreign matter, oil or moisture and shall be non-absorbing.

The size of blocking medium required shall depend on the width of the joints after proper preparation as shown below:

<u>Joint Width</u>	<u>Blocking Media Dia.</u>
5/16 in. (.8 cm.)	3/8 in. (.98 cm.)
3/8 in. (.96 cm.)	1/2 in. (1.28 cm.)
1/2 in. (1.28 cm.)	5/8 in. (1.6 cm.)
5/8 in. (1.6 cm.)	3/4 in. (1.92 cm.)
3/4 in. (1.92 cm.)	1 in. (2.54 cm.)
1 in. (2.54 cm.)	1 1/4 in. (3.18 cm.)
1 1/4 in. (3.18 cm.)	1 1/2 in. (3.8 cm.)
1 1/2 in. (3.8 cm.)	2 in. (5.08 cm.)

605-2.3.7 LIMITS OF JOINT PREPARATION

The work required for the removal of existing joint sealant, widening and/or deepening of the joint openings if required, refacing of joint faces, and sandblasting of the joint faces may proceed at any production rate determined by the contractor. The final stages of joint preparation which includes air pressure cleaning of joints and placement of separating and/or blocking medium if required, shall be limited to that lineal footage of joint that can be resealed during a day's production.

605-2.3.8 PRIMING

Some silicone sealants require priming of the joint before installation. The priming procedure should always follow the manufacturer's instructions for proper application rate and proper time of cure before the sealant is the temperature and relative humidity changes.

605-2.3.9 INSTALLATION OF THE SEALANT

Installation of the sealant shall be such that the in-place sealant will adhere to the concrete and be free of voids. The joints shall be sealed in a neat and workmanlike manner. It is recommended that upon completion of the work, the surface of the sealant material shall be 1/4 inch + 1/8 inch below the pavement surface. The contractor shall "spot up" or refill all low joints before final acceptance. Any excess material on the surface of the pavement shall be removed and the pavement surface shall be left in a clean condition.

If the silicone sealant material is not self-leveling, the sealant material shall be tooled in a manner which causes it to wet the joint surfaces.

Climatic conditions shall be considered when this type of material is to be specified. Silicone sealant cures by reacting with atmospheric moisture, but the rate of cure is temperature dependent. At a temperature of 75° F. (24 C.) and 50 percent relative humidity, the sealant will cure to a tack free surface in one hour and reach its ultimate properties in seven to fourteen days. At a temperature of 40° F. (4 C.), the tack-free time will be about two to three hours. If sealing is done at low temperature or if faulting and deflections are severe, longer cure time should be allowed.

605-2.4 METHOD OF MEASUREMENT

Resealing of joints-silicone sealant shall be measured to the nearest lineal foot of seal installed.

605-3.0 BASIS OF PAYMENT

Payment for joint sealant shall be made at the contract unit price. This price shall be full compensation for furnishing all materials, application, delivery, labor, equipment, tools, place of materials, and incidentals necessary to complete the joint sealant.

Payment will be made under:

607-5.0 CONSTRUCTION

Preparation and Sealing of 2 Inch Cracks in Asphalt Pavements

1. Soil Sterilization: A minimum of two weeks prior to scheduling routing, and crack sealant, the contractor shall apply a mixture of herbicide and soil sterilant chemicals to vegetated areas of pavements. If the chemicals have not performed to the Engineer/Owner satisfaction, a second application of chemicals shall

be applied and the cleaning operations delayed until authorized by the Engineer/Owner.

2. Routing: Cracks are to be routed along both sides of the fractured facing of the cracked surface to a depth of 2 inches.
3. Cleaning: Cracks are to be cleaned of all loose or foreign material after routing has been completed. Compressed air at 3000' per second at 100 psi will be used to clean the crack.
4. Filling: After cracks have been satisfactorily cleaned, the asphalt/concrete slurry blend shall be poured or pumped into the crack. Material shall be placed at the bottom of the crack and filled flushed to the surface using a striking device or squeegee. Any excess on the surface is to be removed. The material shall have sufficient time to cure before opening to traffic.

607-6.0 MEASUREMENT

Cracks sealed with the asphalt/concrete slurry blend will be measured by the linear feet.

607-7.0 PAYMENT

Payment shall be made at the contract bid price for satisfactorily preparing, cleaning, routing, sterilizing, and slurry sealing all specified cracks that exceed 2 inches or greater. Such payment shall be full compensation for furnishing all materials, labor, tools, equipment, and incidentals necessary to perform satisfactorily to the Engineer/Owner.

PAINTING Water Emulsion Base

620-1.0 DESCRIPTION

This item shall consist of the painting of numbers, markings, and stripes on the surface of runways and taxiways applied in accordance with these specifications and at the locations shown on the plans, or as directed by the engineer. Painting scheme will be such as to duplicate the original stripes, markings and numbers in accordance with FAA Advisory Circular AC 150/5340-1F to include runway centerline marking, designation numbers at each end of runway, runway side stripes, threshold markers and taxiway centerline marking.

620-2.0 MATERIALS

620-2.1 PAINT

Paint shall meet requirements of Federal Specifications TT-P-1952. The paint will have reflective media, as specified.

620-2.2 REFLECTIVE MEDIA

Glass beads shall meet the requirements of Federal Specification TT-B-1325. Glass beads shall be treated with adhesions and or flotation coating as specified by the manufacturer of the paint. Glass beads improve the friction characteristics of all markings. Type I glass beads will be added uniformly over the surface of the pigmented paint binder. Application noted in 620-3.5.

620-3.0 CONSTRUCTION METHODS

620-3.1 WEATHER LIMITATIONS

The painting shall be performed only when the existing surface is dry, when the atmospheric temperature is above 45 degrees F (7 degrees C), and when the weather is not foggy or windy. The suitability of the weather will be determined by the engineer.

620-3.2 EQUIPMENT

All equipment for the work shall be approved by the Engineer and shall include the apparatus necessary to properly clean the existing surface, a mechanical marking machine, and such auxiliary hand painting equipment as may be necessary to satisfactorily complete the job.

The mechanical marker shall be an atomizing spray-type marking machine suitable for application of traffic paint. It shall produce an even and uniform film thickness at the required coverage and shall be designed so as to apply markings of uniform cross sections and clear-cut edges without running or spattering.

620-3.3 PREPARATION OF SURFACE

Immediately before application of the paint, the surface shall be dry and free from dirt, grease, oil, or other foreign material which would reduce the bond between the paint and the pavement. The area to be painted shall be cleaned by sweeping and blowing or by other methods as required to remove all dirt, laitance, and loose materials. Areas which cannot be satisfactorily cleaned by brooming and blowing shall be scrubbed as directed with a water solution or trisodium phosphate (10% Na₃ Po₄ by weight) or an approval equal solution. After scrubbing, the solution shall be rinsed off and the surface dried prior to painting.

[Paint shall not be applied to portland cement concrete pavement until the concrete in the areas to be painted is clean of curing material. Sandblasting or high pressure water shall be used to remove curing material from concrete surfaces.]

620-3.4 LAYOUT OF MARKINGS

On those sections of pavement where no previously applied markings are available to serve as a guide, the proposed markings shall be laid out in advance of the paint application. All runway and taxiway markings are to conform to FAA Advisory Circular 150/5340-1G.

620-3.5 APPLICATION

The paint shall be mixed in accordance with the manufacturer's instructions and applied to the pavement with a marking machine at the rate of 100 to 110 square feet (9 to 10 square meters) per gallon (liter). The addition of thinner will not be permitted. A period of 24 hours shall elapse between placement of a bituminous surface course or seal coat and application of the paint. Upon application to properly prepared surfaces, and after curing, the paint shall not bleed excessively, blister, peel, curl, or discolor.

Reflective media shall be distributed to the surface of the pigmented binder immediately and imbedded at the rate of seven pounds per gallon to provide adhesion and reflection.

The edges of the markings shall not vary from a straight line more than 1/2 inch (12 mm) in 50 feet (15 m), and the dimensions shall be within a tolerance of plus or minus 5 percent.

The contractor shall furnish certified test reports for the materials shipped to the project. Contractor is to supply material safety data sheet to the Engineer/Owner. The reports shall not be interpreted as a basis for final acceptance. The contractor shall notify the Engineer/Owner upon arrival of a shipment of paint to the job site. All emptied containers shall be returned to the paint storage area. The containers shall not be removed from the airport or destroyed until authorized by the Engineer/Owner.

All holding lines, taxiway centerlines, hazardous areas, taxiway side stripes, and tie-down markings shall be aviation yellow.

Award will be made by complete lot(s). [06-6015-1]

AWARD CRITERIA -- BIDS (JAN 2006)

Award will be made to the lowest responsible and responsive bidder(s). [06-6020-1]

AWARD TO MULTIPLE OFFERORS (JAN 2006)

Award may be made to more than one offeror. [06-6035-1]

Awards will be made by complete lot and will be made to the two (2) lowest responsive and responsible bidders. Failure to offer on all items requested will result in rejection of the offer.

CALCULATING THE LOW BID

In calculating the Low Bid, all pricing will be taken from the Bidding Schedule as shown in Section VIII of this solicitation. The "Estimated Extended Price" will be calculated by multiplying the "Estimated Quantity" by the "Unit Price." The Lot Total will be the sum total of the "Estimated Extended Price" for all line items within the Lot. The lowest bidder will be determined as the Vendor having the lowest Total Bid Price per Lot.

EXAMPLE: Pricing used in the following example is NOT a representation of the pricing model anticipated in actual offers and is purely for demonstration purposes only. Using a generic unit price of \$0.30 for each of the items within the Lot, the following totals would be calculated:

	Estimated Quantity	Unit Price	Estimated Extended Price	CALCULATIONS
Item 1	120,000	\$ 0.30	\$ 36,000.	120,000 X .30 = 36,000
Item 2	20,000	\$ 0.30	\$ 6,000.	20,000 X .30 = 6,000
Item 3	50,000	\$ 0.30	\$ 15,000.	50,000 X .30 = 15,000
Item 4	160,000	\$ 0.30	\$ 48,000.	160,000 X .30 = 48,000
Item 5	42,000	\$ 0.30	\$ 12,600.	42,000 X .30 = 12,600
Item 6	59,000	\$ 0.30	\$ 17,700.	59,000 X .30 = 17,700
Item 7	59,000	\$ 0.30	\$ 17,700.	59,000 X .30 = 17,700
Item 8	85,000	\$ 0.30	\$ 25,500.	85,000 X .30 = 25,500
ENTER THE TOTAL FOR THIS LOT			\$ 178,500.	36,000 + 6,000 + 15,000 + 48,000 + 12,600 + 17,700 + 17,700 + 25,500 = 178,500

FEE FOR ADMINISTRATIVE SERVICES - RECEIPTS - SPO (OCT 2007)

As provided herein, a public procurement unit, by participating in this contract, owes the Materials Management Office (MMO) a Fee for administrative services. A public procurement unit shall pay the Fee directly to Contractor as a part of the contract price. Contractor is responsible for collecting this Fee from participating public procurement units (state and local) and paying the Fee to MMO. The price stated in any offeror's bid or proposal shall include all amounts necessary for Contractor to meet this obligation. Contractor shall factor the Fee into its contract pricing and shall not separately itemize or invoice for the Fee.

(a) For each Payment Period, Contractor shall pay to MMO a Fee equal to **0.75%** of the total dollar amount (excluding sales taxes & adjusted for credits or refunds) received from any public procurement unit by Contractor pursuant to this Agreement. As used in this clause, the term "Payment Period" means each full calendar quarter (Jan. -- Mar., Apr. -- Jun., Jul. -- Sep., and Oct. -- Dec.) and any periods less than a full calendar quarter during the term of this Agreement. Payment for each Payment Period must be received on or before the last day of the month immediately following the end of the Payment Period (Example: Payment for the quarterly "Payment Period" of Jan. - Mar. 2004 is due on or before April 30, 2004). Payments are to be mailed to: Materials Management Office, Attn: Contract Admin. Fee, 1201 Main Street, Suite 600, Columbia, S.C., 29201. Payments shall be made to the order of the Materials Management Office. If the amount due for a Payment Period is less than \$10.00, no payment is required.

(b) Contractor shall submit a Usage Report for each Payment Period, even if no payment is due for the Payment Period. The Usage Report shall include any information requested by MMO to verify the amount due. At a minimum, each Usage Report shall reflect the following information for the applicable Payment Period: contractor's name, contract number, contract description, Payment Period/quarter, Total Dollar Value of Invoice Payments Received (excluding sales taxes and showing any adjustments for credits or refunds), Total Number of Units (if practicable), and the number, date, and amount of Contractor's check to MMO. The MMO procurement officer may require the Contractor to provide a separate, more detailed usage report. Should this be necessary, the procurement officer will work directly with the contractor to determine the appropriate content and format of the separate report. Separate reports may be required on a quarterly basis.

(c) During the term of this Agreement and for a period of three years thereafter, MMO, its auditors, or other authorized representatives shall be afforded access at reasonable times to Contractor's accounting records in order to audit all records relating to goods sold or work performed pursuant to this Agreement. If such an audit indicates that Contractor has materially underpaid MMO, then Contractor shall remit the underpayment and reimburse MMO for all costs of the audit.

(d) All amounts that become payable by the Contractor to MMO under this Agreement shall bear simple interest from the date due until paid unless paid within 30 calendar days of becoming due. The interest rate shall be the highest prime rate (as published in The Wall Street Journal) plus 2% per annum (unless a higher rate is provided by law, but in no event be greater than the maximum interest rate permitted by law), shall be variable, and shall be adjusted effective at the close of business on the day of any change in the prime rate.

(e) In the event the Contractor fails to make any payment when due, Contractor shall be liable to MMO for all expenses, court costs, and attorneys' fees (including inside counsel) incurred in enforcing the terms and conditions of this Agreement.

(f) Failure to pay any amount due pursuant to this clause may result in the Contractor's debarment pursuant to Section 11-35-4220 of the South Carolina Code of Laws, as amended.

(g) For purposes of this clause, MMO is intended as a third-party beneficiary of this Agreement. The phrase "public procurement unit" is defined by Section 11-35-4610(5) of the South Carolina Code of Laws, as amended.

NOTICE: The administrative fee created by this clause is calculated against receipts. After a contract has been awarded, contractor may elect to calculate the administrative fee against sales. To effect this election, a change order must be executed. The change order will substitute a different administrative fee clause for this one. The alternate clause is available for review upon request and may be found at www.ogs.state.sc.us/DDP/terms/. Any election must be made within thirty (30) days of final award. If you wish to make this election, contact the procurement officer identified on the cover page of this solicitation.

CHANGES (JAN 2006)

(1) Contract Modification. By a written order, at any time, and without notice to any surety, the Procurement Officer may, subject to all appropriate adjustments, make changes within the general scope of this contract in any one or more of the following:

- (c) place of delivery;
- (d) description of services to be performed;

Any adjustment in contract price made pursuant to this clause shall be determined in accordance with the Price Adjustment Clause of this contract. Failure of the parties to agree to an adjustment shall not excuse the contractor from proceeding with the contract as changed, provided that the State promptly and duly make such provisional adjustments in payment or time for performance as may be reasonable. By proceeding with the work, the contractor shall not be deemed to have prejudiced any claim for additional compensation, or an extension of time for completion.

(3) Time Period for Claim. Within 30 days after receipt of a written contract modification under Paragraph (1) of this clause, unless such period is extended by the Procurement Officer in writing, the contractor shall file notice of intent to assert a claim for an adjustment. Later notification shall not bar the contractor's claim unless the State is prejudiced by the delay in notification.

(c) Both the certificate and the endorsement must be received directly from either the contractor's insurance agent or the insurance company.

(5) Contractor shall provide a minimum of thirty (30) days written notice to every applicable using governmental unit of any proposed reduction of coverage limits (on account of revised limits or claims paid under the General Aggregate) or any substitution of insurance carriers.

The Contractor shall enforce strict discipline and good order among the Contractor's employees and other persons carrying out the Contract. The Contractor shall not permit employment of unfit persons or persons not skilled in tasks assigned to them. [07-7B060-1]

DEFAULT (JAN 2006)

(a) (1) The State may, subject to paragraphs (c) and (d) of this clause, by written notice of default to the Contractor, terminate this contract in whole or in part if the Contractor fails to:

(i) Deliver the supplies or to perform the services within the time specified in this contract or any extension;

(ii) Make progress, so as to endanger performance of this contract (but see paragraph (a)(2) of this clause); or

(iii) Perform any of the other material provisions of this contract (but see paragraph (a)(2) of this clause).

(2) The State's right to terminate this contract under subdivisions (a)(1)(ii) and (1)(iii) of this clause, may be exercised if the Contractor does not cure such failure within 10 days (or more if authorized in writing by the Procurement Officer) after receipt of the notice from the Procurement Officer specifying the failure.

(b) If the State terminates this contract in whole or in part, it may acquire, under the terms and in the manner the Procurement Officer considers appropriate, supplies or services similar to those terminated, and the Contractor will be liable to the State for any excess costs for those supplies or services. However, the Contractor shall continue the work not terminated.

(c) Except for defaults of subcontractors at any tier, the Contractor shall not be liable for any excess costs if the failure to perform the contract arises from causes beyond the control and without the fault or negligence of the Contractor. Examples of such causes include (1) acts of God or of the public enemy, (2) acts of the State in either its sovereign or contractual capacity, (3) fires, (4) floods, (5) epidemics, (6) quarantine restrictions, (7) strikes, (8) freight embargoes, and (9) unusually severe weather. In each instance the failure to perform must be beyond the control and without the fault or negligence of the Contractor.

(d) If the failure to perform is caused by the default of a subcontractor at any tier, and if the cause of the default is beyond the control of both the Contractor and subcontractor, and without the fault or negligence of either, the Contractor shall not be liable for any excess costs for failure to perform, unless the subcontracted supplies or services were obtainable from other sources in sufficient time for the Contractor to meet the required delivery schedule.

(e) If this contract is terminated for default, the State may require the Contractor to transfer title and deliver to the State, as directed by the Procurement Officer, any (1) completed supplies, and (2) partially completed supplies and materials, parts, tools, dies, jigs, fixtures, plans, drawings, information, and contract rights (collectively referred to as "manufacturing materials" in this clause) that the Contractor has specifically produced or acquired for the terminated portion of this contract. Upon direction of the Procurement Officer, the Contractor shall also protect and preserve property in its possession in which the State has an interest.

(f) The State shall pay contract price for completed supplies delivered and accepted. The Contractor and Procurement Officer shall agree on the amount of payment for manufacturing materials delivered and accepted and for the protection and preservation of the property; if the parties fail to agree, the Procurement Officer shall set an amount subject to the Contractor's rights under the Disputes clause. Failure to agree will be a dispute under the Disputes clause. The State may withhold from these amounts any sum the Procurement Officer determines to be necessary to protect the State against loss because of outstanding liens or claims of former lien holders.

(g) If, after termination, it is determined that the Contractor was not in default, or that the default was excusable, the rights and obligations of the parties shall, if the contract contains a clause providing for termination for convenience of the State, be the same as if the termination had been issued for the convenience of the State. If, in the foregoing circumstances, this contract does not contain a clause providing for termination for convenience of the State, the contract shall be adjusted to compensate for such termination and the contract modified accordingly subject to the contractor's rights under the Disputes clause.

(h) The rights and remedies of the State in this clause are in addition to any other rights and remedies provided by law or under this contract.

[07-7B075-1]

ESTIMATED QUANTITY -- UNKNOWN (JAN 2006)

The total quantity of purchases of any individual item on the contract is not known. The State does not guarantee that the State will buy any specified item or total amount. The omission of an estimated purchase quantity does not indicate a lack of need but rather a lack of historical information. [07-7B095-1]

ILLEGAL IMMIGRATION (NOV. 2008)

(An overview is available at www.procurement.sc.gov) By signing your offer, you certify that you will comply with the applicable requirements of Title 8, Chapter 14 of the South Carolina Code of Laws and agree to provide to the State upon request any documentation required to establish either: (a) that Title 8, Chapter 14 is inapplicable to you and your subcontractors or sub-subcontractors; or (b) that you and your subcontractors or sub-subcontractors are in compliance with Title 8, Chapter 14. Pursuant to Section 8-14-60, "A person who knowingly makes or files any false, fictitious, or fraudulent document, statement, or report pursuant to this chapter is guilty of a felony, and, upon conviction, must be fined within the discretion of the court or imprisoned for not more than five years, or both." Notwithstanding any limitation in this agreement, and to the fullest extent permitted by law, Contractor shall defend and hold harmless Indemnitees for and against any and all suits or claims of any character (and all related damages, settlement payments, attorneys' fees, costs, expenses, losses or liabilities) by a third party which are attributable to bodily injury, sickness, disease or death, or to injury to or destruction of tangible property arising out of or in connection with the goods or services acquired hereunder or caused in whole or in part by any act or omission of contractor, its subcontractors, their employees, workmen, servants, agents, or anyone directly or indirectly employed by them or anyone for whose acts any of them may be liable, regardless of whether or not caused in part by an Indemnitee, and whether or not such claims are made by a third party or an Indemnitee; however, if an Indemnitee's negligent act or omission is subsequently determined to be the sole proximate cause of a suit or claim, the Indemnitee shall not be entitled to indemnification hereunder. Contractor shall be given timely written notice of any suit or claim. Contractor's obligations hereunder are in no way limited by any protection afforded under workers' compensation acts, disability benefits acts, or other employee benefit acts. This clause shall not negate, abridge, or reduce any other rights or obligations of indemnity which would otherwise exist. The obligations of this paragraph shall survive termination, cancelation, or expiration of the parties' agreement. This provision shall be construed fairly and reasonably, neither strongly for nor against either party, and without regard to any clause regarding insurance. As used in this clause, "Indemnitees" means the State of South Carolina, its instrumentalities, agencies, departments, boards, political subdivisions and all their respective officers, agents and employees. [07-7B100-2]

LICENSES AND PERMITS (JAN 2006)

During the term of the contract, the Contractor shall be responsible for obtaining, and maintaining in good standing, all licenses (including professional licenses, if any), permits, inspections and related fees for each or any such licenses, permits and /or inspections required by the State, county, city or other government entity or unit to accomplish the work specified in this solicitation and the contract. [07-7B115-1]

PRICE ADJUSTMENTS (JAN 2006)

(1) Method of Adjustment. Any adjustment in the contract price made pursuant to a clause in this contract shall be consistent with this Contract and shall be arrived at through whichever one of the following ways is the most valid approximation of the actual cost to the Contractor (including profit, if otherwise allowed):

(a) by agreement on a fixed price adjustment before commencement of the pertinent performance or as soon thereafter as practicable;

- (b) by unit prices specified in the Contract or subsequently agreed upon;
 - (c) by the costs attributable to the event or situation covered by the relevant clause, including profit if otherwise allowed, all as specified in the Contract; or subsequently agreed upon;
 - (d) in such other manner as the parties may mutually agree; or,
 - (e) in the absence of agreement by the parties, through a unilateral initial written determination by the Procurement Officer of the costs attributable to the event or situation covered by the clause, including profit if otherwise allowed, all as computed by the Procurement Officer in accordance with generally accepted accounting principles, subject to the provisions of Title 11, Chapter 35, Article 17 of the S.C. Code of Laws.
- (2) Submission of Price or Cost Data. Upon request of the Procurement Officer, the contractor shall provide reasonably available factual information to substantiate that the price or cost offered, for any price adjustments is reasonable, consistent with the provisions of Section 11-35-1830.
[07-7B160-1]

PRICE ADJUSTMENT - LIMITED -- AFTER INITIAL TERM ONLY (JAN 2006)

Upon approval of the Procurement Officer, prices may be adjusted for any renewal term. Prices shall not be increased during the initial term. Any request for a price increase must be received by the Procurement Officer at least ninety (90) days prior to the expiration of the applicable term and must be accompanied by sufficient documentation to justify the increase. If approved, a price increase becomes effective starting with the term beginning after approval. A price increase must be executed as a change order. Contractor may terminate this contract at the end of the then current term if a price increase request is denied. Notice of termination pursuant to this paragraph must be received by the Procurement Officer no later than fifteen (15) days after the Procurement Officer sends contractor notice rejecting the requested price increase. [07-7B165-1]

This is a firm fixed price term contract. It is the intent of the Materials Management Office to maintain the bid price for the full initial term (1 year) plus the four (4) option terms (also 1 year). Offerors are encouraged to secure pricing from the manufacturers accordingly. The price adjustment clause is included so the Materials Management Office may consider a price increase in unusual market conditions.

PRICE ADJUSTMENTS -- LIMITED BY CPI "ALL ITEMS" (JAN 2006)

Upon request and adequate justification, the Procurement Officer may grant a price increase up to, but not to exceed, the unadjusted percent change for the most recent 12 months for which data is available, that is not subject to revision, in the Consumer Price Index (CPI) for all urban consumers (CPI-U), "all items" for services, as determined by the Procurement Officer. The Bureau of Labor and Statistics publishes this information on the web at www.bls.gov

The state may audit your records at reasonable times and places. At the end of the initial term, and at the end of each renewal term, this contract shall automatically renew for a period of **1 year(s)**, 0 month(s), and 0 day(s), unless contractor receives notice that the state elects not to renew the contract at least thirty (30) days prior to the date of renewal. Regardless, this contract expires no later than the last date stated on the final statement of award. [07-7B245-1]

TERM OF CONTRACT -- TERMINATION BY CONTRACTOR (JAN 2006)

Contractor may terminate this contract at the end of the initial term, or any renewal term, by providing the Procurement Officer notice of its election to terminate under this clause **at least 120 days** prior to the expiration of the then current term. [07-7B250-1]

TERMINATION FOR CONVENIENCE -- INDEFINITE DELIVERY / INDEFINITE QUANTITY CONTRACTS (JAN 2006)

Unless the termination so provides, a termination for convenience shall not operate to terminate any purchase orders issued prior to the effective date of termination. [07-7B255-1]

TERMINATION FOR CONVENIENCE (JAN 2006)

(1) Termination. The Procurement Officer may terminate this contract in whole or in part, for the convenience of the State. The Procurement Officer shall give written notice of the termination to the contractor specifying the part of the contract terminated and when termination becomes effective.

(2) Contractor's Obligations. The contractor shall incur no further obligations in connection with the terminated work and on the date set in the notice of termination the contractor will stop work to the extent specified. The contractor shall also terminate outstanding orders and subcontracts as they relate to the terminated work. The contractor shall settle the liabilities and claims arising out of the termination of subcontracts and orders connected with the terminated work. The Procurement Officer may direct the contractor to assign the contractor's right, title, and interest under terminated orders or subcontracts to the State. The contractor must still complete the work not terminated by the notice of termination and may incur obligations as are necessary to do so.

(3) Right to Supplies. The Procurement Officer may require the contractor to transfer title and deliver to the State in the manner and to the extent directed by the Procurement Officer: (a) any completed supplies; and (b) such partially completed supplies and materials, parts, tools, dies, jigs, fixtures, plans, drawings, information, and contract rights (hereinafter called "manufacturing material") as the contractor has specifically produced or specially acquired for the performance of the terminated part of this contract. The contractor shall, upon direction of the Procurement Officer, protect and preserve property in the possession of the contractor in which the State has an interest. If the Procurement Officer does not exercise this right, the contractor shall use best efforts to sell such supplies and manufacturing materials in accordance with the standards of Uniform Commercial Code Section 2-706. Utilization of this Section in no way implies that the State has breached the contract by exercise of the Termination for Convenience Clause.

(4) Compensation. (a) The contractor shall submit a termination claim specifying the amounts due because of the termination for convenience together with cost or pricing data required by Section 11-35-1830 bearing on such claim. If the contractor fails to file a termination claim within one year from the effective date of termination, the Procurement Officer may pay the contractor, if at all, an amount set in accordance with Subparagraph (c) of this Paragraph.

(b) The Procurement Officer and the contractor may agree to a settlement and that the settlement does not exceed the total contract price plus settlement costs reduced by payments previously made by the State, the proceeds of any sales of supplies and manufacturing materials under Paragraph (3) of this clause, and the contract price of the work not terminated;

(c) Absent complete agreement under Subparagraph (b) of this Paragraph, the Procurement Officer shall pay the contractor the following amounts, provided payments agreed to under Subparagraph (b) shall not duplicate payments under this Subparagraph:

(i) contract prices for supplies or services accepted under the contract;

(ii) costs reasonably incurred in performing the terminated portion of the work less amounts paid or to be paid for accepted supplies or services;

(iii) reasonable costs of settling and paying claims arising out of the termination of subcontracts or orders pursuant to Paragraph (2) of this clause. These costs must not include costs paid in accordance with Subparagraph (c)(ii) of this paragraph;

(iv) any other reasonable costs that have resulted from the termination. The total sum to be paid the contractor under this Subparagraph shall not exceed the total contract price plus the reasonable settlement costs of the contractor reduced by the amount of payments otherwise made, the proceeds of any sales of supplies and manufacturing materials under Subparagraph (b) of this Paragraph, and the contract price of work not terminated.

(d) Contractor must demonstrate any costs claimed, agreed to, or established under Subparagraphs (b) and (c) of this Paragraph using its standard record keeping system, provided such system is consistent with any applicable Generally Accepted Accounting Principles.

(5) Contractor's failure to include an appropriate termination for convenience clause in any subcontract shall not (i) affect the state's right to require the termination of a subcontract, or (ii) increase the obligation of the state beyond what it would have been if the subcontract had contained an appropriate clause.
