CEP High Speed Encryption**

Part Number	Description	List Price	SC Price 27%
Management Software			
TRUSTNET-MGR-HW	Trustnet Manager Software is web-based device management software that controls all Certes encryptors and encryption policy enforcement points, from CEP-5 (5 Mbps) to CEP-10G (10 Gbps), CryptoFlow Net Enforcer software, Virtual Certes Enforcement Point (vCEP) – for virtual deployments. The software provides key, policy, and device management for all Certes Network encryptors. The server (TNM-HW) can be purchased through Certes Networks.	One license included with VSE-yy, FSE-5 or VCEP-CPU-xx licenses	N/A
CNFC-SW	CryptoFlow Net Creator is web-based device management software that controls all Certes encryptors and encryption policy enforcement points, from CEP-5 (5 Mbps) to CEP-10G (10 Gbps), CryptoFlow Net Enforcer software, Virtual Certes Enforcement Point (vCEP) – for virtual deployments. The software provides key, policy, and device management for all Certes Network encryptors. The server can be purchased from Dell or a Dell authorized reseller.	One license included with VSE-yy, FSE-5 or VCEP-CPU-xx licenses	N/A
CEP-VSE Family Variable Speed Encryption (VSE)			
CEP5-LC-AC	Ethernet multi-layer network encryption and authentication appliance - small form factor. Five 10/100/1000 Ethernet interfaces for network connectivity.	\$ 608.00	\$ 443.84
CEP10-VSE	Ethernet multi-layer network encryption and authentication appliance - 1U form factor with 6, 10, 25 or 50 Mbps bandwidth licenses available. FIPS-140-2 Level 2 validated (certificate number 1798). Two-10/100/1000 Ethernet interfaces for network connectivity.	\$ 1,200.00	\$ 876.00
CEP100-VSE	Ethernet multi-layer network encryption and authentication appliance – 1U form factor with 25, 50, 100, or 250 Mbps bandwidth licenses available. FIPS-140-2 Level 2 validated (certificate number 1799). Two-10/100/1000 Ethernet interfaces for network connectivity.	\$ 2,400.00	\$ 1,752.00
CEP1000-VSE-AC	Gigabit Ethernet multi-layer network encryption and authentication appliance – 1U form factor with 100 Mbps, 250 Mbps, 500 Mbps, or 1 Gbps bandwidth licenses available. FIPS-140-2 Level 2 validated (certificate number 1799). Two small form factor (SFP) slots for network connectivity and dual hot swappable AC power supplies.	\$ 6,400.00	\$ 4,672.00
CEP1000-VSE-DC	Gigabit Ethernet multi-layer network encryption and authentication appliance – 1U form factor with 100 Mbps, 250 Mbps, 500 Mbps or 1 Gbps bandwidth licenses available. Two small form factor (SFP) slots for network connectivity and dual hot swappable DC power supplies. FIPS-140-2 Level 2 validated (certificate number 1799).	\$ 7,400.00	\$ 5,402.00
CEP10G-VSE-DC	10 Gigabit Ethernet multi-layer network encryption and authentication appliance - 2U form factor with 1 Gbps, 2.5 Gbps, 5 Gbps, or 10 Gbps bandwidth licenses available. Two full-duplex 10 Gigabit Ethernet Small Form Factor Plus (SFP+) slots for network connectivity (single mode or multimode). Three full duplex Gigabit Ethernet LAN aggregation ports for future expansion (three SFP ports and three full RJ-45 copper ports). Dual hot swappable DC power supplies. FIPS-140-2 Level 2 validated (certificate number 1707).	\$ 22,500.00	\$ 16,425.00

**State of South Carolina
CEP High Speed Encryption**

Part Number	Description	List Price	SC Price 27%
CEP10G-VSE-AC	10 Gigabit Ethernet network encryption and authentication appliance - 2U form factor with 1 Gbps, 2.5 Gbps, 5 Gbps, or 10 Gbps bandwidth licenses available. Two full-duplex 10 Gigabit Ethernet Small Form Factor Plus (SFP+) slots for network connectivity (single mode or multimode). Three full duplex Gigabit Ethernet LAN aggregation ports for future expansion (three SFP ports and three full RJ-45 copper ports). Dual hot swappable AC power supplies. FIPS-140-2 Level 2 validated (certificate number 1797).	\$ 22,500.00	\$ 16,425.00
MGR-HW	Optimized and hardened physical server. Includes pre-installed Certes TrustNet Manager or CryptoFlow Net Creator software. A software license for TRUSTNET-MGR-SW or CNFC-SW must be ordered separately.	\$ 8,500.00	\$ 6,205.00
MGR-HW-HSM	Hardware Security Module (HSM) add-on for the physical server (MGR-HW). The HSM module provides secure generation of keys, true random number generation, and other advanced security features. One HSM can be installed per physical server. The physical server (MGR-HW) must be ordered separately.	\$ 7,500.00	\$ 5,475.00
CryptoFlow NET Enforcer CEP VSE Software and Bandwidth Licenses			
FSE-5	Net Encryptor CEP software and fixed speed encryption (FSE) software license for one CEP5-LC appliance. Includes a software license to enforce multi-layer (L2, L3, L4) encryption and authentication policies on one CEP5-LC appliance and a bandwidth for FSE-5 licenses.	\$ 250.00	\$ 182.50
VSE-6Mbps	Net Enforcer CEP software and bandwidth license for one CEP10-VSE appliance. Includes a software license to enforce multi-layer (L2, L3, L4) encryption and authentication policies on one CEP10-VSE appliance and a bandwidth license for 6 Mbps.	\$ 300.00	\$ 219.00
VSE-10Mbps	Net Enforcer CEP software and bandwidth license for one CEP10-VSE appliance. Includes a software license to enforce multi-layer (L2, L3, L4) encryption and authentication policies on one CEP10-VSE appliance and a bandwidth license for 10 Mbps.	\$ 800.00	\$ 584.00
VSE-25Mbps	Net Enforcer CEP software and bandwidth license for one CEP10-VSE or CEP100-VSE appliance. Includes a software license to enforce multi-layer (L2, L3, L4) encryption and authentication policies on one CEP10-VSE or CEP100-VSE appliance and a bandwidth license for 25 Mbps.	\$ 1,300.00	\$ 949.00
VSE-50Mbps	Net Enforcer CEP software and bandwidth license for one CEP10-VSE or CEP100-VSE appliance. Includes a software license to enforce multi-layer (L2, L3, L4) encryption and authentication policies on one CEP10-VSE or CEP100-VSE appliance and a bandwidth license for 50 Mbps.	\$ 1,800.00	\$ 1,314.00
VSE-100Mbps	Net Enforcer CEP software and bandwidth license for one CEP100-VSE or CEP1000-VSE appliance. Includes a software license to enforce multi-layer (L2, L3, L4) encryption and authentication policies on one CEP100-VSE or CEP1000-VSE appliance and a bandwidth license for 100 Mbps.	\$ 3,100.00	\$ 2,263.00
VSE-250Mbps	Net Enforcer CEP software and bandwidth license for one CEP100-VSE or CEP1000-VSE appliance. Includes a software license to enforce multi-layer (L2, L3, L4) encryption and authentication policies on one CEP100-VSE or CEP1000-VSE appliance and a bandwidth license for 250 Mbps.	\$ 4,600.00	\$ 3,358.00

**State of South Carolina
CEP High Speed Encryption**

Part Number	Description	List Price	SC Price 27%
VSE-500Mbps	Net Enforcer CEP software and bandwidth license for one CEP1000-VSE appliance. Includes a software license to enforce multi-layer (L2, L3, L4) encryption and authentication policies on one CEP1000-VSE appliance and a bandwidth license for 500 Mbps.	\$ 7,600.00	\$ 5,548.00
VSE-1Gbps	Net Enforcer CEP software and bandwidth license for one CEP1000-VSE or CEP10G-VSE appliance. Includes a software license to enforce multi-layer (L2, L3, L4) encryption and authentication policies on one CEP1000-VSE or CEP10G-VSE appliance and a bandwidth license for 1 Gbps.	\$ 12,600.00	\$ 9,198.00
VSE-2.5Gbps	Net Enforcer CEP software and bandwidth license for one CEP10G-VSE appliance. Includes a software license to enforce multi-layer (L2, L3, L4) encryption and authentication policies on one CEP10G-VSE appliance and a bandwidth license for 2.5 Gbps.	\$ 22,500.00	\$ 16,425.00
VSE-5Gbps	Net Enforcer CEP software and bandwidth license for one CEP10G-VSE appliance. Includes a software license to enforce multi-layer (L2, L3, L4) encryption and authentication policies on one CEP10G-VSE appliance and a bandwidth license for 5 Gbps.	\$ 29,500.00	\$ 21,535.00
VSE-10Gbps	Net Enforcer CEP software and bandwidth license for one CEP10G-VSE appliance. Includes a software license to enforce multi-layer (L2, L3, L4) encryption and authentication policies on one CEP10G-VSE appliance and a bandwidth license for 10 Gbps.	\$ 37,500.00	\$ 27,375.00
CEP VSE Family Bandwidth Upgrades			
VSE-UG-6-10Mbps	Net Enforcer CEP VSE bandwidth upgrade license for one appliance. Bandwidth upgrade from 6 Mbps to 10 Mbps.	\$ 500.00	\$ 365.00
VSE-UG-6-25Mbps	Net Enforcer CEP VSE bandwidth upgrade license for one appliance. Bandwidth upgrade from 6 Mbps to 25 Mbps.	\$ 1,000.00	\$ 730.00
VSE-UG-6-50Mbps	Net Enforcer CEP VSE bandwidth upgrade license for one appliance. Bandwidth upgrade from 6 Mbps to 50 Mbps.	\$ 1,500.00	\$ 1,095.00
VSE-UG-10-25Mbps	Net Enforcer CEP VSE bandwidth upgrade license for one appliance. Bandwidth upgrade from 10 Mbps to 25 Mbps.	\$ 500.00	\$ 365.00
VSE-UG-10-50Mbps	Net Enforcer CEP VSE bandwidth upgrade license for one appliance. Bandwidth upgrade from 10 Mbps to 50 Mbps.	\$ 1,000.00	\$ 730.00
VSE-UG-25-50Mbps	Net Enforcer CEP VSE bandwidth upgrade license for one appliance. Bandwidth upgrade from 25 Mbps to 50 Mbps.	\$ 500.00	\$ 365.00
VSE-UG-25-100Mbps	Net Enforcer CEP VSE bandwidth upgrade license for one appliance. Bandwidth upgrade from 25 Mbps to 100 Mbps.	\$ 1,800.00	\$ 1,314.00
VSE-UG-25-250Mbps	Net Enforcer CEP VSE bandwidth upgrade license for one appliance. Bandwidth upgrade from 25 Mbps to 250 Mbps.	\$ 3,300.00	\$ 2,409.00
VSE-UG-50-100Mbps	Net Enforcer CEP VSE bandwidth upgrade license for one appliance. Bandwidth upgrade from 50 Mbps to 100 Mbps.	\$ 1,300.00	\$ 949.00
VSE-UG-50-250Mbps	Net Enforcer CEP VSE bandwidth upgrade license for one appliance. Bandwidth upgrade from 50 Mbps to 250 Mbps.	\$ 2,800.00	\$ 2,044.00
VSE-UG-100-250Mbps	Net Enforcer CEP VSE bandwidth upgrade license for one appliance. Bandwidth upgrade from 100 Mbps to 250 Mbps.	\$ 1,500.00	\$ 1,095.00
VSE-UG-100-500Mbps	Net Enforcer CEP VSE bandwidth upgrade license for one appliance. Bandwidth upgrade from 100 Mbps to 500 Mbps.	\$ 4,500.00	\$ 3,285.00
VSE-UG-100-1Gbps	Net Enforcer CEP VSE bandwidth upgrade license for one appliance. Bandwidth upgrade from 100 Mbps to 1 Gbps.	\$ 9,500.00	\$ 6,935.00
VSE-UG-250-500Mbps	Net Enforcer CEP VSE bandwidth upgrade license for one appliance. Bandwidth upgrade from 250 Mbps to 500 Mbps.	\$ 3,000.00	\$ 2,190.00

**State of South Carolina
CEP High Speed Encryption**

Part Number	Description	List Price	SC Price 27%
VSE-UG-250-1Gbps	Net Enforcer CEP VSE bandwidth upgrade license for one appliance. Bandwidth upgrade from 250 Mbps to 1 Gbps.	\$ 8,000.00	\$ 5,840.00
VSE-UG-500-1Gbps	Net Enforcer CEP VSE bandwidth upgrade license for one appliance. Bandwidth upgrade from 500 Mbps to 1 Gbps.	\$ 5,000.00	\$ 3,650.00
VSE-UG-1-2.5Gbps	Net Enforcer CEP VSE bandwidth upgrade license for one appliance. Bandwidth upgrade from 1 Gbps to 2.5 Gbps.	\$ 9,900.00	\$ 7,227.00
VSE-UG-1-5Gbps	Net Enforcer CEP VSE bandwidth upgrade license for one appliance. Bandwidth upgrade from 1 Gbps to 5 Gbps.	\$ 16,900.00	\$ 12,337.00
VSE-UG-1-10Gbps	Net Enforcer CEP VSE bandwidth upgrade license for one appliance. Bandwidth upgrade from 1 Gbps to 10 Gbps.	\$ 24,900.00	\$ 18,177.00
VSE-UG-2.5-5Gbps	Net Enforcer CEP VSE bandwidth upgrade license for one appliance. Bandwidth upgrade from 2.5 Gbps to 5 Gbps.	\$ 7,000.00	\$ 5,110.00
VSE-UG-2.5-10Gbps	Net Enforcer CEP VSE bandwidth upgrade license for one appliance. Bandwidth upgrade from 2.5 Gbps to 10 Gbps.	\$ 15,000.00	\$ 10,950.00
VSE-UG-5-10Gbps	Net Enforcer CEP VSE bandwidth upgrade license for one appliance. Bandwidth upgrade from 5 Gbps to 10 Gbps.	\$ 8,000.00	\$ 5,840.00
CEP Family SFP Modules and Spares			
SFP-SM-01	One 1310 nm SFP, single-mode gigabit Ethernet interface converter with duplex LC connector. Includes one 3-meter LC-LC connection single-mode fiber cable. For use with CEP1000-VSE.	\$ 900.00	\$ 657.00
SFP-CP1-01	One 1000Base-T, RJ-45 SFP Gigabit Ethernet interface converter copper transceiver. Includes one 6-foot CAT5 cable. For use with CEP1000-VSE	\$ 700.00	\$ 511.00
SFP-SMXR-01	One 1550 nm SFP, single-mode, extended reach (for use up to 80 km or 49.7 mi on 9/125 um single mode fiber), 1000BASE-ZX gigabit Ethernet interface converter with duplex LC connector. For use with CEP1000-VSE.	\$ 2,000.00	\$ 1,460.00
SFP+-10G-MMSR-01	One 850 nm SFP+, multi-mode, short reach (for use up to 980 ft.) 10 Gigabit Ethernet interface converter with duplex LC connector. Includes one 3-meter LC-LC connection multi-mode fiber cable. For use with CEP10G-AC and CEP-10G-DC.	\$ 1,000.00	\$ 730.00
SFP+-10GSMLR-01	One 1310 nm SFP+, single-mode, long reach (for use up to 10 km or 6.2 miles), 10 Gigabit Ethernet interface converter with duplex LC connector. Includes one 3-meter LC-LC connection single-mode fiber cable. For use with CEP10G-AC and CEP10G-DC.	\$ 2,500.00	\$ 1,825.00
SFP+-10GSMXR-01	One 1550 nm SFP+, single-mode, extended reach (for use up to 40 km or 24.9 miles), 10 Gigabit Ethernet interface converter with duplex LC connector. Includes one 3-meter LC-LC connection single-mode fiber cable. For use with CEP10G-AC and CEP10G-DC.	\$ 7,500.00	\$ 5,475.00
PWR-1000-DC-01	Two DC power supplies for the CEP1000-VSE-DC.	\$ 1,000.00	\$ 730.00
CEP5-LC-RM-1	Rack mount kit for mounting a single CEP5-LC in a single rack unit (1U) within a 19 inch rack.	\$ 130.00	\$ 94.90
CEP5-LC-RM-2	Dual rack mount kit for mounting two CEP5-LC units in a single rack unit (1U) within a 19 inch rack.	\$ 140.00	\$ 102.20
CEP5-LC-AC-SPARE	Ethernet multi-layer network encryption and authentication appliance - small form factor. Five 10/100/1000 Ethernet interfaces for network connectivity. Includes Ethernet management port cable, DB-9 serial interface cable, and external AC power supply with power cord. TrustNet appliance software license (FSE-5) must be ordered separately.	\$ 608.00	\$ 443.84

**State of South Carolina
CEP High Speed Encryption**

Part Number	Description	List Price	SC Price 27%
CEP10-VSE Spare	Ethernet multi-layer network encryption and authentication appliance - 1U form factor with 6, 10, 25 or 50 Mbps bandwidth licenses available. Two-10/100/1000 Ethernet interfaces for network connectivity. AC power. Includes accessory kit (power cord, 10/100 management port cable, DB- 9 serial interface cable, rack mounting ears and screws, and documentation CD). Does not require an additional software and bandwidth license - uses the software bandwidth license from the replaced unit.	\$ 1,200.00	\$ 876.00
CEP100-VSE Spare	Ethernet multi-layer network encryption and authentication appliance – 1U form factor with 25, 50, 100, or 250 Mbps bandwidth licenses available. Two-10/100/1000 interfaces for network connectivity. AC power. Includes accessory kit (power cord, 10/100 management port cable, DB- 9 serial interface cable, rack mounting ears and screws, and documentation CD). Does not require an additional software and bandwidth license - uses the software bandwidth license from the replaced unit.	\$ 2,400.00	\$ 1,752.00
CEP1000-VSE-AC Spare	Gigabit Ethernet multi-layer network encryption and authentication appliance – 1U form factor with 100 Mbps, 250 Mbps, 500 Mbps, or 1 Gbps bandwidth licenses available. Two small form factor (SFP) slots for network connectivity and dual hot swappable AC power supplies. Includes accessory kit (power cord, 10/100 management port cable, DB-9 serial interface cable, rack mounting ears and screws and documentation CD). SFP modules must be ordered separately. Does not require an additional software and bandwidth license - uses the software bandwidth license from the replaced unit.	\$ 6,400.00	\$ 4,672.00
CEP1000-VSE-DC Spare	Gigabit Ethernet multi-layer network encryption and authentication appliance – 1U form factor with 100 Mbps, 250 Mbps, 500 Mbps, or 1 Gbps bandwidth licenses available. Two small form factor (SFP) slots for network connectivity and dual hot swappable DC power supplies. Includes accessory kit (power cord, 10/100 management port cable, DB-9 serial interface cable, rack mounting ears and screws and documentation CD). SFP modules must be ordered separately. Does not require an additional software and bandwidth license - uses the software bandwidth license from the replaced unit.	\$ 7,400.00	\$ 5,402.00
CEP10G-VSE-DC Spare	10 Gigabit Ethernet multi-layer network encryption and authentication appliance - 2U form factor with 1 Gbps, 2.5 Gbps, 5 Gbps, or 10 Gbps bandwidth licenses available. Two full-duplex 10 Gigabit Ethernet Small Form Factor Plus (SFP+) slots for network connectivity (single mode or multimode). Three full duplex Gigabit Ethernet LAN aggregation ports for future expansion (three SFP ports and three full RJ-45 copper ports). Dual hot swappable DC power supplies. Includes accessory kit (Power cord, 10/100/1000 RJ-45 management port cable, DB-9 serial interface cable, rack mounting ears and screws, and documentation CD). SFP+ and SFP modules must be ordered separately. Does not require an additional software and bandwidth license - uses the software bandwidth license from the replaced unit.	\$ 22,500.00	\$ 16,425.00

Virtual CEP Encryption

Part Number	Description	List Price	SC Price 27%
Virtual Certes Enforcement Point (vCEP) Family			
vCEP-CPU-02	vCEP virtual appliance for multi-layer encryption and authentication. Delivered as an Open Virtualization Archive (.OVA) file. Includes one perpetual software license to operate a single vCEP virtual appliance on a single server with two (2) virtual CPUs allocated to the vCEP virtual appliance. vCEP-CPU-xx licenses include one license for TN Manager (TN-MGR-SW)	\$ 1,495.00	\$ 1,091.35
vCEP-CPU-04	vCEP virtual appliance for multi-layer encryption and authentication. Delivered as an Open Virtualization Archive (.OVA) file. Includes one perpetual software license to operate a single vCEP virtual appliance on a single server with four (4) virtual CPUs allocated to the vCEP virtual appliance. vCEP-CPU-xx licenses include one license for TN Manager (TN-MGR-SW)	\$ 2,995.00	\$ 2,186.35
vCEP Software Support			
SW-SLV-1	Yearly Silver software maintenance fee. Covers all software maintenance and updates. Includes technical phone support Monday through Friday: 8am - 5pm EST and Email support.	15%	N/A
SW-SLV-3	Three year Silver software maintenance fee. Covers all software maintenance and updates. Includes technical phone support Monday through Friday: 8am - 5pm EST and Email support.	30%	N/A
SW-SLV-5	Five year Silver software maintenance fee. Covers all software maintenance and updates. Includes technical phone support Monday through Friday: 8am - 5pm EST and Email support.	45%	N/A
SW-GLD-1	Yearly Gold software maintenance fee. Covers all software maintenance and updates. Includes technical phone support 24/7/365 and Email support.	20%	N/A
SW-GLD-3	Three year Gold software maintenance fee. Covers all software maintenance and updates. Includes technical phone support 24/7/365 and Email support.	38%	N/A
SW-GLD-5	Five year Gold software maintenance fee. Covers all software maintenance and updates. Includes technical phone support 24/7/365 and Email support.	54%	N/A

CryptoFlow Mobile**

Part Number	Description	List Price	SC Price 27%
CryptoFlow APP Products			
CFAE-SW	CryptoFlow App Enforcer. Security policy enforcer software. While the CFNA will run on a wide range of COTS servers, Certes tests and supports Dell servers these can be purchased directly from Dell or from a Dell authorized reseller.	One included with CFMA-1USE-UN licenses	N/A
CFAC-SW	CryptoFlow App Creator is security policy engine software that controls Certes CryptoFlow App Enforcers. It provides key, policy, and device management for Certes Networks CryptoFlow App Enforcers. NOTE: Requires a CryptoFlow Mobile App User License (below).	One included with CFMA-1USE-UN licenses	N/A
CFMA-1USE-UN	CryptoFlow Mobile App User License. 1-user, unlimited applications, 5-devices. List Price is the Annual Subscription for 12 months.	\$ 60.00	\$ 43.80
CryptoFlow Net Products (COTS)			
CryptoFlow NET Software			
CFNE-SW	CryptoFlow Net Enforcer software enforces encryption and authentication policies on Commercial Off The Shelf (COTS) servers. While the CFNE will run on a wide range of COTS servers, Certes tests and supports Dell servers these can be purchased directly from Dell or from a Dell authorized reseller.	One included with the purchase of CFN-XXXXBPS licenses	N/A
CFNC-SW	CryptoFlow Net Creator is web-based device management software that controls all Certes encryptors and encryption policy enforcement points, from CEP-5 (5 Mbps) to CEP-10G (10 Gbps), CryptoFlow Net Enforcer software, Virtual Certes Enforcement Point (vCEP) – for virtual deployments.	One included with CFN-XXXXBPS licenses	N/A
CryptoFlow Net Encryption Throughput Licenses			
CFN-200MBPS	CryptoFlow encryption multi-site license. Encryption throughput license (200 Mbps) per CryptoFlow solution.	\$ 9,600.00	\$ 7,008.00
CFN-2GBPS	CryptoFlow encryption multi-site license. Encryption throughput license (2 Gbps) per CryptoFlow solution.	\$ 36,000.00	\$ 26,280.00
CFN-20GBPS	CryptoFlow encryption multi-site license. Encryption throughput license (20 Gbps) per CryptoFlow solution.	\$ 100,000.00	\$ 73,000.00
CryptoFlow NET Products Software Support			
SP-CFN-GLD-1	Yearly Gold software maintenance fee. Covers all software maintenance and updates. Includes technical phone support Monday through Friday: 8am - 5pm EST and Email support.	15%	
SP-CFN-GLD-3	Three year Gold software maintenance fee. Covers all software maintenance and updates. Includes technical phone support Monday through Friday: 8am - 5pm EST and Email support.	30%	
SP-CFN-GLD-5	Five year Gold software maintenance fee. Covers all software maintenance and updates. Includes technical phone support Monday through Friday: 8am - 5pm EST and Email support.	45%	
SP-CFN-PLT-1	Yearly Platinum software maintenance fee. Covers all software maintenance and updates. Includes technical phone support 24/7/365 and Email support.	20%	
SP-CFN-PLT-3	Three year Platinum software maintenance fee. Covers all software maintenance and updates. Includes technical phone support 24/7/365 and Email support.	38%	
SP-CFN-PLT-5	Five year Platinum software maintenance fee. Covers all software maintenance and updates. Includes technical phone support 24/7/365 and Email support.	54%
